

## ABOUT ONYX FINANCIAL GROUP

We're risk management specialists and we know that your business, and your family, will face unavoidable risks. The reality is that risk isn't isolated and that's why we take an integrated approach to wealth management, group benefits and group retirement planning.

The ONYX team has become one of the "go to" firms in Manitoba when businesses and their owners are looking for a firm that has the depth of a large national organization, but is small enough to customize their work and build great relationships.

To do that, we have developed solid expertise to address the needs of the business owner and their family, the business itself, and its employees.

Risk management isn't just about protection. It's about freeing up your focus and your energy so that you can put it toward growing what's important to you, not worrying about it.

To discuss your specific needs or for more information, please contact us at: 204.777.6699 or email [info@onyxfinancial.ca](mailto:info@onyxfinancial.ca).
